HAER No. AR-42

NOTE: These photographs are Government materials not subject to copyright. However, the courtesy of a credit line identifying the Historic American Engineering Record (HAER) and the photographer would be appreciated. Michael Swanda photographed the bridge in September 1986. (These photographs are made from 4" x 5" copy negatives taken from 35mm, 3.5" x 5" black and white photographs that were shot in 1986. This bridge was destroyed before large format photographs could be taken.)
